PRECISION COLLECTION®

Electrical Commercial/ Industrial Database

The Precision Electrical Industrial/Commercial Database gives you the details you need to begin estimating productively right away. Thousands of standard industry items—from conduit and cabling to light fixtures—are included to get you started. Just add your historical costs, or import current pricing from Trade Service, and you're ready to go.

You can also customize the database to fit your unique needs. Precision makes it easy to add your own items, formulas, productivity and conversion factors to the database as you estimate.

The database also includes Smart Assemblies™ that let you take off even the most complicated electrical component in one step. For example, by using one of the cable tray assemblies, you can quickly take off all the trays, conduit, connectors and hangers in any given run.

General Database Specifications

- More than 15,000 items
- More than 700 formulas
- 59 Bill of Material classes
- 453 Smart Assemblies

Division	Number of Assemblies
General Conditions	2
Sitework	7
Miscellaneous Work	1
Service Entrance	2
Conduit & Copper CU Wire	21
Conduit & Aluminum Wire	10
Conduit Only	12
Underfloor & Wall Duct	7
Wireways	15
Cable Tray	13
Wiremold	12
Boxes	14
Enclosures	10
Assembled Equipment	5
Motor Control Centers	1
Transformer & Capacitors	7
Enclosed Circuit Breakers	6
Safety Switch Disconnects	19
Safety Switches Only	5
Motor & Light Controllers & Starters	19
Bus Duct	13
Fuses	3
Wire & Cable - Copper	20
Wire & Cable - Aluminum	12
Wire & Cable - High Voltage	6
Wire & Cable - Special Cables	17
Light Fixtures	28
Explosion Proof Light Fixtures	7

Lamps Only	13
Receptacles	18
Switches	10
Special Switches	15
Fire Alarm Systems	27
Sound Systems	10
Clock Systems	13
MATV & CCTV Systems	8
Security Systems	12
Hospital Systems	16
Emergency & Uninterruptible Power	3
Signaling Systems	7
Electric Heat	7
